LINCOLN MKT STRETCH LIMOUSINE

Features:

- Vehicles are stocked with ice/water
- Glassware is provided for your use
- Privacy partition
- Tinted windows for privacy

This is what most people think of when they think of the word "limo." However, this vehicle is different: all of our stretches have a fifth door in the passenger compartment, so it is much easier to enter and exit the vehicle. The door is also an additional safety feature. Seating for eight passengers comfortably.

*Be careful when you look around for stretches. While they are rated at 10 passengers, this number includes the chauffeur and passenger seat so technically only eight people can fit in the back. Any company that allows more people in the back is endangering your safety.
